ABOUT ME

My name Is Natnael Yeshiwas, I am 21 years old.
passionate Software Engineering Student at AASTU.
I am experienced at building websites and interested
In AI and NLP(natural language processing).
I am currently looking for new challenges around, and
would be open to work with.

WORK EXPERIENCE

• Web developer

07/2022 - back end developer(Fundisha consultancy)

I only had one chance to have professional work
physically and this was last summer (2022/Aug).

This was the best experience I had yet, because I
was faced real time problems and responsibilities
and have the chance to meet an interesting peoples.

Having this kind of challenge is really makes me to
see not only my skill level, but also my
communication level and show me my vulnerability.

GOALS ACHIEVED

In current status my biggest goal is to
be an entrepreneur and build different
products that really influence peoples
positively. Creating an environment
where new things produce and every
one can participate is one of my major
goal.

ACADEMIC BACKGROUND

- I am 3rd year software engineering Student in
Addis ababa Science and Technology
University. I am going to graduate on 2025 in
EC.
- I am computational programmer and
interested in solving problems.
